### **Information About All Our Visitors**

We collect certain information from and about our users in two ways – from Web server logs and with cookies.

Server Log Information: When you visit an Internet site or mobile app, you disclose certain information about yourself, such as your Internet [Protocol] (IP) address, browser type, the time of your visit, and the referring location (e.g., the site page that offered a link to our Site page). Other information disclosed includes clickstream data, which includes a record of the clicked selections you make while visiting the MC Votes App. Like many other apps, we record this basic information about visits to the MC Votes App.

Cookies: In order to offer and provide accurate, customized, personal service, we use cookies and web beacons (also known as clear GIF technology or “action tags”) to store and help track your information, and to speed your navigation of the MC Votes App. If for any reason you wish not to take advantage of cookies, you may have your browser not accept them, although this will disable or render unusable some essential features of the MC Votes App and services. If you disagree with our usage of cookies, please do not use the MC Votes App.

The information we collect and store does not identify you personally.

### **How and When Information is Used**

We use this information to help us make the MC Votes App more useful to visitors; to learn about the number of visitors to our site and the types of technology our visitors use. We do not track or record information about individuals and their visits.
